EXPERIENCE

Frontend Simplified

June 2024 – Present

Frontend Development Mentor

Overland Park, KS

- Lead weekly workshops on emerging frontend technologies and conduct biweekly comprehensive code reviews, resulting in improvement in student project quality
- Manage student progress using project management tools, facilitating regular 1:1 meetings via Calendly to ensure accountability, leading to a 40% increase in course completion rates
- Collaborate with career services to evaluate student readiness for job market entry, contributing to a 30% increase in job placement rates
- Implement and maintain a structured check-in system to monitor overall student development, proactively addressing challenges and reducing dropout rates by 20%

TSP Consulting Inc.

April 2024 – Present

Frontend Developer

Overland Park, KS

- Develop responsive and interactive user interfaces for complex banking applications using React and TypeScript, resulting in a 20% increase in user engagement and a 15% reduction in customer support tickets related to UI issues
- Utilized Mock Service Worker for robust frontend testing, improving application reliability and reducing development cycle time by 15%
- Collaborated with cross-functional teams to implement new features and improve existing functionality, contributing to a 10% increase in overall product satisfaction scores
- Contributed to the development of reusable component libraries, leveraging Material-UI and custom design components, which accelerated project timelines by 20% and improved code consistency across the team

Scaling.so

Oct 2023 – March 2024

Frontend Developer

Overland Park, KS

- Designed and integrated charts to efficiently represent statistical data, resulting in an improvement in user comprehension of complex financial information and a 25% increase in time spent on data analysis pages
- Implemented OAuth integration for Calendly using its API, ensuring seamless token management by utilizing refresh tokens for extended sessions beyond the initial 2-hour OAuth validity, reducing user authentication issues by 40%
- Advanced the user experience through dynamic route changes based on actions like date sorting and event history navigation, fortified by user-centric URL structuring, leading to a 35% decrease in navigation time and a 20% increase in user retention

PROJECTS

Book Summary | [Website](#) | [Github](#) | NEXT · TYPESCRIPT · FIREBASE · REDUX · STRIPE

Feb 2024

Full Stack Development

Overland Park, KS

- Designed and launched a user-friendly platform allowing readers to quickly grasp core concepts of extensive literary works with AI, achieving an average 95% satisfaction rate based on feedback on accuracy and readability

Frontend Internship | [Website](#) | [Github](#) | REACT · AOS

Jan 2024

Frontend Development

Overland Park, KS

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels. Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing. Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Notion Clone | [Website](#) | [Github](#) | NEXT · TYPESCRIPT · TAILWIND CSS · CONVEX · CLERK

Nov 2023

Full Stack Development

Overland Park, KS

- End-to-end fullstack notion clone. Including proper notion-style editor, cover images, nested documents, publishing documents to the public, and real-time database (convex). Authentication handled with clerk.

Twitter Clone | [Website](#) | [Github](#) | NEXT · REDUX · TAILWIND CSS · FIREBASE

Oct 2023

Full Stack Development

Overland Park, KS

- Fullstack twitter clone. Including posts, posts feed, likes, modals, and more. Authentication and posts database handled with Firebase.
